HEALTHY EATING PLATE

your guide for building a balanced plate. adapted from NHLBI,

CHOOSE YOUR CARBS

carbs are important for fuel and energy. choose whole grains, high in fiber and provide essential vitamins like B vitamins. helps in digestion and release energy at a slow steady rate.

rice

pasta

oats

multigrain roller meal,
zviyo/mhunga (sadza)

bread

PICK YOUR PROTEINS

proteins are building blocks and important for muscle maintenance and repair. lean proteins are lower in saturated fats and calories and help meet protein intake without raising cholesterol levels

eggs

chicken, fish/seafood, pork, lean cuts of beef, offals (gizzards, liver, kidney)

plant-based proteins: sugar beans, nyemba (cowpeas), nyimo (Bambara groundnuts), nzungu (groundnuts/peanuts)

dairy sources of proteins: milk, yoghurt (natural/greek), lacto.

FINALLY, VEGGIES + FRUITS!

vegetables & fruits are rich in vitamins and minerals, low in calories and rich in fiber important. having a variety and colourful plate ensures adequate intake of essential nutrients.
